Comments

Her name is Lincoln. This foundation ewe was our son's FFA project, which is why she is our very last VBN foundation ewe in our VBN breed up program. Our son graduates from high school this year and it is time for Lincoln to find a new home. Lincolns are one of our favorite breeds for VBN foundation ewes. Their beautiful wool, structure, easy lambing, excellent mothers, and good milk supply result in quality progeny. Their white wool serves as a blank canvas for the VBN markings.
